was, whether, when they got ready for fight they should have armed soldiers or unarmed citizens to shoot at. I thought the best way citizens to shoot at. I thought the best way would be to regard the militia as an insurrection and send soldiers to suppress it, and clean it out. He didn't know, he said, what was best to be done; he wanted to see the liams, our colored debator, and Gov. Foote addressed a large audience at Springfield, on the 1st. The Register thus speaks of the effort of the former:

"Williams pitched into Brownlow's record and sited it therepeaks a hour and sited it therepeaks a hour in the meanest despotism in its worst form—and about the meanest despot he wanted to see the peace of the State preserved, but didn't know exactly how best to preserved, but didn't know exactly how best to preserve it. He regarded the State government of Tennessee as the worst despotism he had ever heard of—a military despotism in its worst form—and about the meanest despot he wanted to see the peace of the State preserved, but didn't know exactly how best to preserved.

The same writer in a letter from Washing ton, dated July 5th, speaks thus about the effect of Senstor Wilson's visit to the South:

ble scabs for about an hour and a half, he closed his speech, which was well received by the most attentive audience we have ever seen."

THE TOBACCO SHIPMENTS.—European to bacco dealers are in the habit of sending their agents to Clarksville, in this State, which is one of the largest tobacco markets in the world, and for certain sorts of tobacco has no rival. The agents buy in Clarksville, and then the tobaco is shipped to Europe through New Orleans houses. Most of the tobacco is sent from Clarksville to Paducah, and is there transhipped and carried to New Orleans. The freight from Paducah to New Orleans by steamboats is exactly the same as from Memphis to New Orleans. The boats are in this to New Orleans. Mr. Wilson comes back fully convinced, so Memphis and Ohio railroad and integral has done more than any other man, and Memphis, and would aid in building up our rate quite as much—to shape the policy of trade. It would bring money here to be spent. It would be every way beneficial.—
